Cyber Threat Monitoring Designed For All Employees

Aquta Human Firewall Program arms your employees by knowing the hacker's mind, hardening their behaviours and engaging them as "Cyber Vigilantes" on the Vigilante Monitoring App.

The Benefits Of Vigilante

First defence against primary cyber threat

Vigilante provides real time alerts in the event emails or credentials have been compromised. It is your first line of defence against external and internal threats.

Cyber protection *without* the expert

Vigilante simplifies complex data, allowing every employee to efficiently analyse and categorise potential threats to your organisation creating your Human Firewall.

Employee engagement & motivation

Vigilante is specifically designed to engage every employee in reducing cyber risk through monitoring of external and internal threats and compliance in behavioural risk avoidance.

Behaviour anomaly detection

Vigilante AI feature helps detect anomalous behavior patterns of users - both intentional and unintentional- giving HR proactive identification of high risk user behaviour (file deletions, unusual access, downloading).

Darkweb external threat fusion

Vigilante scans the darkweb and external threat databases for malicious IPs, password leaks and key indicators of compromise and fuses this with MS 365 audit logs to give real-time wholistic cyber threat visibility and alerts.

Human Firewall Program

The program empowers all employees/teams/department heads in active threat monitoring. It consists of immersive awareness workshops, competency in monitoring, threat triaging, team engagement, audit interpretation and reviews.
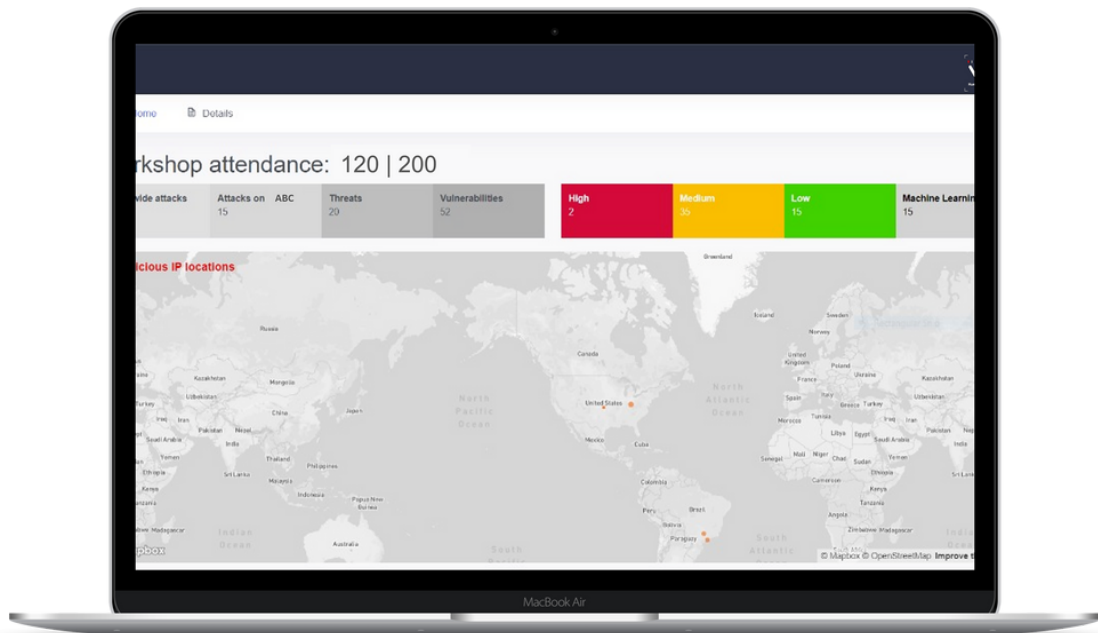

The Vigilante Simplicity

- Designed for non-IT personnel monitoring and engagement

- No installation required.

- Scalable to organisations of any size

- Simple navigation and intuitive functionality

- No specialist training required for users

- One click on-boarding process

- 90 days of historic data top line analytics in 24 hours

- Designed for triaging IOC's to IT security by company-wide employees
